The best formulations and technology for your vehicle.
ADAPTIVE ONE® PERFORMANCE DISC BRAKE PADS INCLUDE:

- Advanced noise reduction technology
- CleanCoat™ technology for more effective stopping during the break-in process and cleaner wheels
- Formulated for aggressive stopping power

RED CLEANCOAT™ TECHNOLOGY

CleanCoat™ technology for more effective stopping during the break-in process and cleaner wheels.

SPECIALIZED HARDWARE

The advanced rubberized hardware included in 95+% of sales is designed specifically for the ADO brake pads to ensure exceptional operation for the life of the pad.

Adaptive One Performance disc brake pads provide a strong level of brake bite in aggressive braking situations which allows for shorter stopping distances for your high-performance vehicle.
